Comments for September 2009

The Corpus Christi MSA added 400 jobs over the month in Total Nonagricultural Employment. This over-the-month increase was the first increase since February when the same amount of jobs were added. Over the past twelve months, employment fell -3.9 percent. The Leisure and Hospitality industry experienced a seasonal decrease and lost 600 jobs over the month. This loss matched the five-year average decrease and was the third over-the-month consecutive decrease for the industry. State Government employment had a seasonal increase of 600 jobs for September. Area colleges and universities were the main reason for the increase. This year's September increase was larger than last year's increase of 500 jobs, but matched the 2007 increase.
